DROP OFF AND PICK UP PLACES

Drop off – Cae Ddu Camp site, Beddgelert.

Get on to the A55 and follow until you see the turn off for Llanrwst/Betws-y-Coed. Follow the signs to Betws-y-Coed and travel through the town and continue on to Capel Curig.

Take a left at Capel Curig and follow signs to Beddgelert.

You will travel down the Gwynant Valley for about five/six miles, eventually going through Nant Gwynant, a small village. Carry on until you pass the Sygun Copper Mines on your left. About one mile beyond here the road bears right and then left. As you come out of the left hand bend you will see the camp site on your left. Turn left into the camp site and follow the road until you reach the site office which is just over a bridge. Tell the owner that you are with the D. of E./ Dave Price. Once you have done this travel through to the far end of the site where you will see a barn. Somewhere in this area you will see either the Minibus or one of the leaders. Please report to them for details of where to camp.

You should plan to be at the drop off point between 1500 and 1600hrs on the Thursday.

Pick up – Llanrwst.

As for the Drop off point but this time do not go beyond Llanrwst. As you come through Llanrwst you will go past the town center, an area of shops in a small square. Pass through this square heading towards Betws y Coed. As you come out of the town you will see a stone bridge on your right. It is a single lane bridge signposted Trefriw. Cross this bridge being aware of oncoming traffic, and go along the road for about 50 yards. On your left is a public car park and we will be in that car park. Look out for the white minibus.

You should plan to be at this point between 1300 a1500hrs on the day.

Any problems please contact Dave Price prior to the start of the expedition weekend.
